Additional examples of payer or provider specific episode-based payment models in Ohio

- Direct to employer partnership for cardiovascular care
- To date at least 7 companies, including Kohl's, Walmart, Lowes, and Boeing are participating
- Care is provided at no fee to patient

- Partnership with 5 oncology groups (one Dayton-based), to offer bundled payment rate for cancer care
- Each group chooses standard chemotherapy regimen across 19 clinical presentations
- Bundle renewed every 4 months if cancer returns

5-Year Goal for Payment Innovation

Goal

80-90 percent of Ohio's population in some value-based payment model (combination of episodes- and population-based payment) within five years

State's Role

- Shift rapidly to PCMH and episode model in Medicaid fee-for-service
- Require Medicaid MCO partners to participate and implement
- Incorporate into contracts of MCOs for state employee benefit program

Patient-centered medical homes

Episode-based payments

Year 1

- In 2014 focus on Comprehensive Primary Care Initiative (CPCi)
- Payers agree to participate in design for elements where standardization and/or alignment is critical
- Multi-payer group begins enrollment strategy for one additional market

- State leads design of five episodes: asthma (acute exacerbation), perinatal, COPD exacerbation, PCI, and joint replacement
- Payers agree to participate in design process, launch reporting on at least 3 of 5 episodes in 2014 and tie to payment within year

Year 3

- Model rolled out to all major markets
- 50% of patients are enrolled

- 20 episodes defined and launched across payers

Year 5

- Scale achieved state-wide
- 80% of patients are enrolled

- 50+ episodes defined and launched across payers
