Columbus –Voices applauds the Kasich Administration for creating a single Medicaid agency. Sandy Oxley, Health Policy and State Field Director stated, “This common sense approach will place the right expertise at a single agency. It will ensure greater accountability and capacity to focus on improving the health outcomes for Ohio’s children and their families.”

Voices looks forward to working with the new agency.

###

Voices for Ohio's Children advocates for public policy that improves the well-being of Ohio's children and their families by building nonpartisan collaborations among the private, public and not-for-profit sectors.
