

## Ohio Health Transformation Update September 24, 2012

OHT applies for a federal payment innovation design grant  
Rather than letting current health care payment systems continue to drain the value out of the care we buy, Governor Kasich directed OHT to engage public-and private-sector partners to design and implement systems of payment that create powerful expectations for better care. On September 23, OHT applied for a federal State Innovation Model (SIM) design grant to support this work.
