Health Transformation**

- 1. Modernize Medicaid,**
- 2. Streamline health and human services, and**
- 3. Engage private sector partners to set clear expectations for overall health system performance**

**Medicaid is Ohio's largest health payer, covering  
1 in 5 Ohioans and 2 in 5 births**

**In 2014, an estimated one million additional  
Ohioans will become eligible for Medicaid**

**Medicaid spending is growing at an unsustainable  
rate, four times faster than the Ohio economy**

**Ohio Medicaid now consumes 30% of total state  
spending and 4% of the total Ohio economy**

# Our Vision for Better Care Coordination

- The vision is to create a person-centered care management approach – not a provider, program, or payer approach
- Services are integrated for all physical, behavioral, long-term care, and social needs
- Services are provided in the setting of choice
- Easy to navigate for consumers and providers
- Transition seamlessly among settings as needs change
- Link payment to person-centered performance outcomes

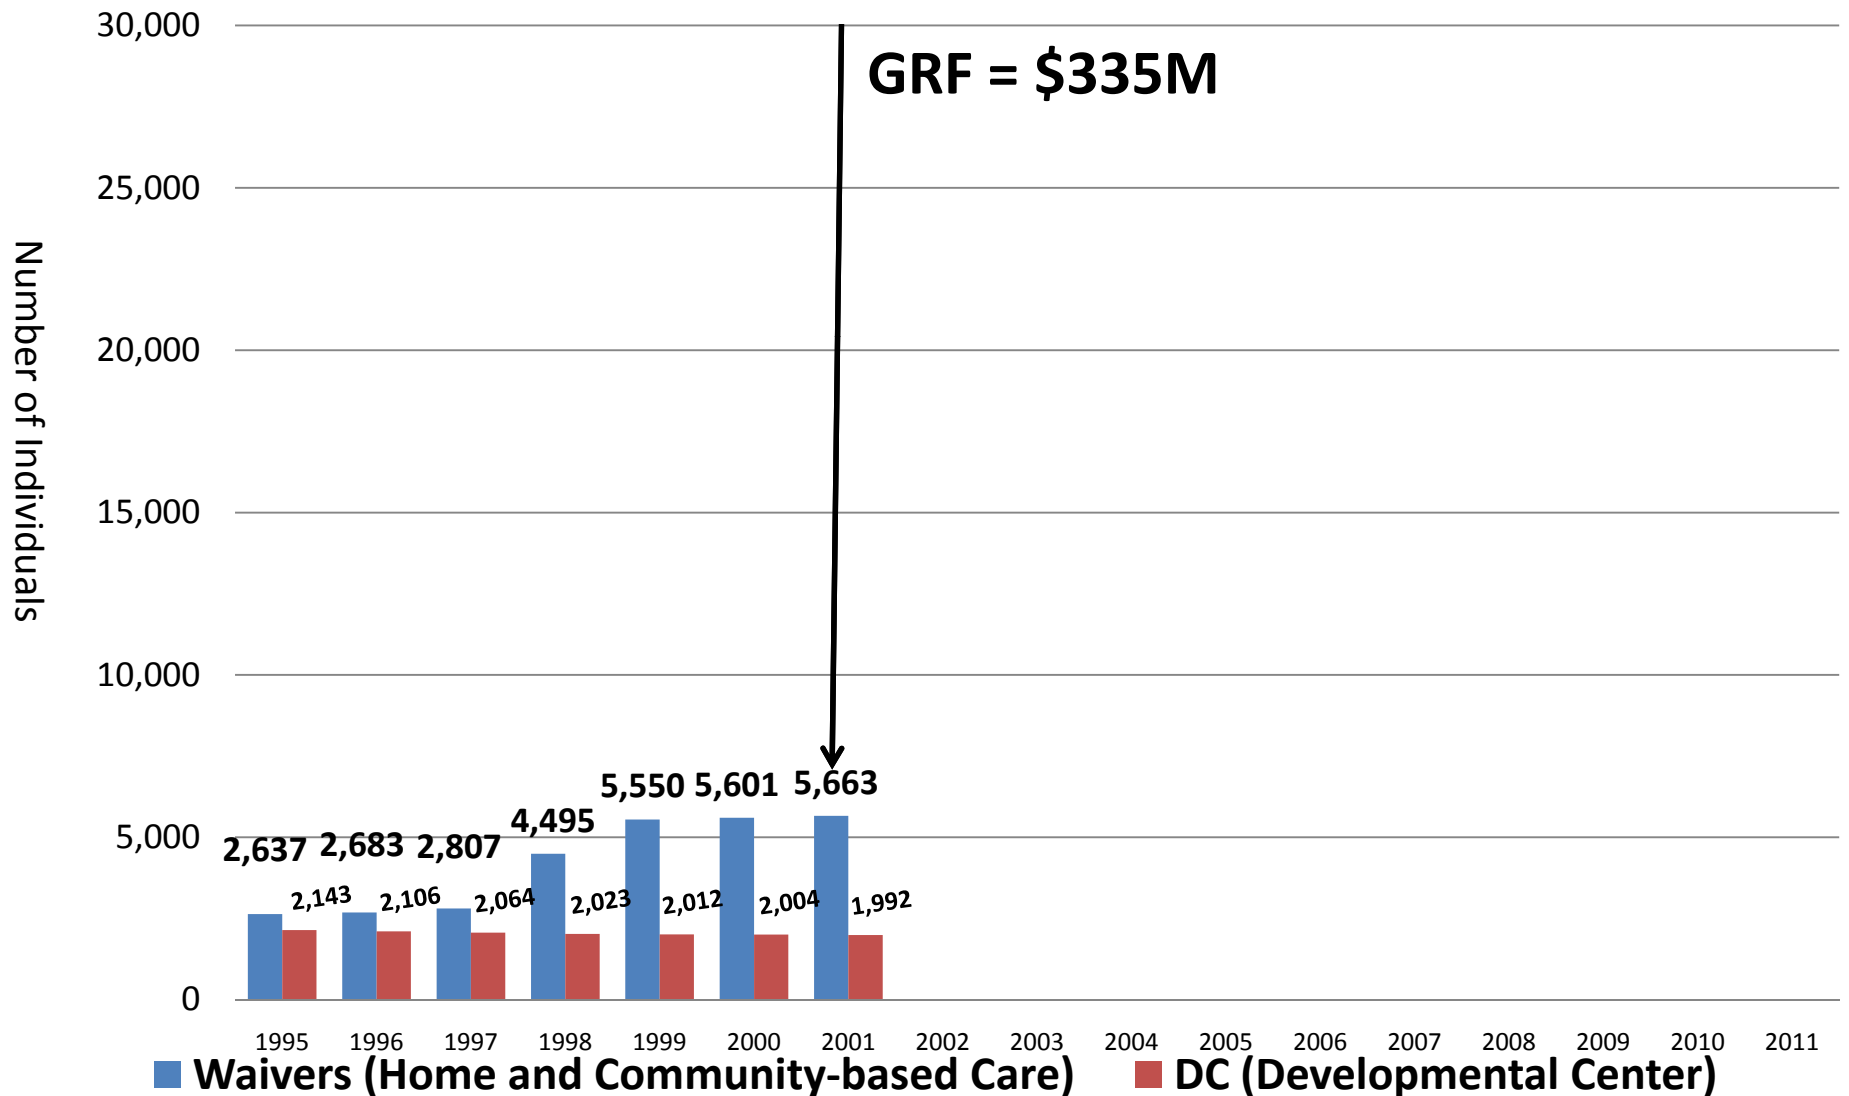

# Medicaid Transformation Priorities

-  Improve Care Coordination
-  Integrate Behavioral/Physical Health Care
-  Rebalance Long-Term Care
-  Modernize Reimbursement

SOURCE: Ohio Governor John R. Kasich, Executive Order 2011-02K (January 13, 2011)

**Ohio HHS policy, spending and administration is split across multiple state and local jurisdictions**

**This inefficient structure impedes innovation and lacks a clear point of accountability**

**We need to share services to increase efficiency and right-size state and local service capacity**

**Only after program and operational alignment occurs will governance changes make sense**

# Health and Human Service System Choices

Program-Centered	vs. Person-Centered
<ul style="list-style-type: none"><li>• Service and benefit centered</li><li>• Program specific services</li><li>• Complicated categorical eligibility</li><li>• Resource and process “counts”</li><li>• No clear point of accountability</li><li>• Deficit (problem) based model</li><li>• Compliance and control</li><li>• Bureaucratic</li></ul>	<ul style="list-style-type: none"><li>• Client/patient/person centered</li><li>• Integrated and coordinated services</li><li>• Streamlined income eligibility</li><li>• “Return on investment”</li><li>• Enterprise performance measures</li><li>• Strength (asset) based model</li><li>• Business intelligence</li><li>• Entrepreneurial</li></ul>

# Operational Hot Spot: Eligibility Determination

## Fragmented

- 88 county offices, each with different processes, results in inconsistent application of eligibility rules
- Two separate processes to determine disability (JFS and RSC) results in duplication and excessive cost

## Overly Complex

- 160 categories of eligibility – just for Medicaid

## Outdated technology

- CRIS-E is more than 30 years old
- Programmed in outdated computer language and cannot link with other health insurance programs

# HHS Transformation Priorities

Consolidate funding and control of Medicaid programs to be more efficient (HB 153)

- Consolidate HHS operations, including eligibility determination, enterprise decision support, and claims payment (planning now)
- Align cross-cutting initiatives, including housing, workforce, and early childhood (ongoing)
- After operational alignment, recommend a permanent HHS governance structure

**Ohioans spend more per person on health care than residents in all but 13 states<sup>1</sup>**

**Rising health care costs are eroding paychecks and profitability**

**Higher spending is not resulting in higher quality or better outcomes for Ohio citizens**

**41 states have a healthier workforce than Ohio<sup>2</sup>**

# Health System Performance Priorities

Leverage Medicaid purchasing power to support delivery system reform (HB 153)

- Align public/private infrastructure, including health insurance exchange and electronic health information exchange (planning now)
- Leverage public/private purchasing power to pay for value not volume, including patient centered medical homes and other innovations

# Ohio Health Transformation Strategic Framework

	MODERNIZE MEDICAID	STREAMLINE HEALTH AND HUMAN SERVICES	IMPROVE HEALTH SYSTEM PERFORMANCE
<b>Executive Order</b>	Advance the Governor's Medicaid modernization and cost containment priorities in the operating budget	Recommend a permanent health and human services organizational structure and oversee transition to that structure	Engage private sector partners to set clear expectations for overall health system performance
<b>Problem</b>	Medicaid spending is growing at an unsustainable rate, four times faster than the Ohio economy, and now consumes 30 percent of total state spending and 4 percent of the Ohio economy	Ohio HHS policy, spending and administration is split across multiple state and local government jurisdictions, and this inefficient structure impedes innovation and lacks a clear point of accountability	Ohioans spend more per person on health care than residents in all but 13 states, yet higher spending is not resulting in higher quality or better health outcomes for Ohio citizens (Ohio ranks 42 in overall)
